Bugs Framework

(Review)

11 Jan 2021

Today's Agenda

- Defining Quality
- Regression Pass/Fail Trendline
(Last 50 releases)
- Feature vs Bugs (Last 2 Months)
- Review: Existing Bugs
Framework
- Discuss: Level of support &
allowance for bug fixes

Defining Quality

- **Correctness**
Does the software behave as it was intended to?
- **Performance**
Is the app fast enough?
- **Reliability**
Does the app reliably accomplish its purpose?
- **Craft**
Do all the tiny details add up to create a genuinely polished experience?

Performance

App start time

App start time (1.34s) is **9% faster** compared to 30 days prior

● All versions
